

Chemistry RAP

<i>What We Do</i>	<i>Why We Do It</i>	<i>Can We Control It?</i>
REPEAT measurements	RELIABILITY so we can TRUST our Results	USUALLY lack of time, shortage of chemicals, expense of chemicals can prevent.
Use BEST of Equipment and Materials	ACCURACY as close to the TRUE result as possible	SOMETIMES generally, equipment available improves as you move up the school
Work CAREFULLY and CONSCIENTIOUSLY	PRECISION get the SAME result again and again	ALWAYS though it can depend on the task. Sometimes we can be more 'relaxed'.
